Work is of two kinds: (1) Altering the position of matter at or near the earth's surface relative to other such matter; (2) Telling other people to do so. The first is unpleasant and ill paid; the second is pleasant and high paid.

The Diddle factor changes things so that the equation and the universe appear to fit, without requiring any real change in either. This has the characteristic of eliminating differences by dropping the subject under discussion to zero importance.

The marvels of today's modern technology include the development of a
soda can, when discarded will last forever ... and a ,000 car which
when properly cared for will rust out in two or three years.

*If I kiss you, that is a psychological interaction.
On the other hand, if I hit you over the head with a brick, that is
also a psychological interaction.
The difference is that one is friendly and the other is not so friendly.
The crucial point is if you can tell which is which.*
